

## Required Middle School Summer Math Work Summer of 2019

In order to verify progress and if not already registered, each student must sign up for the appropriate course in Khan Academy. Please follow the steps below to ensure correct coursework is completed:

### Creating an Account/Logging In:

- Log into Khan Academy. Please use your school Google account if you are a current student. Otherwise, follow steps given in Khan Academy to create a new account.
- Once your account is created, log in.
- Click on the “Coaches” tab on the right of the listed options.
- Under the “Add a Coach” option, type in the appropriate course code and “Join the Class”
  - Students entering Math 6: 8Y5ZQDCP
  - Students entering Math 7: WEE8MDTP
  - Probable Math 8: 3XS7RUFU
  - Probable Algebra 1: 32EG6UUW
- Parents may also choose to set up their email under the second sections to “Add a Parent”, and help monitor all summer! Please send an email if you are adding this class on your own so that “attendance” can be approved and the correction mission can be completed.

---

### Doing Work:

- When accessing via mobile app, assignments will be in Assignments sections (press “see all” if they are not visible)
- When accessing via desktop site, assignments will be in Assignments tab below blue banner
- Practicing skills gives you the chance to eventually master skills and earn points and badges!
- Tips and Suggestions:
  - Select items from the **top half of the course list in the beginning** to make progress easier.
  - Work a little each week. **Khan Academy limits the amount of time you may work on a skill each day.** If you save everything until the end, you will not be allowed to take enough Mastery Challenges in time to earn completion.
  - **Use the videos and hints if you are struggling with a topic.** You won’t earn immediate points, but you will learn the topic and can earn more points in the next set of questions.

---

### What do I turn in?

**In order to complete this GRADED summer requirement, students must finish a 50% of content before August 20th.** This ensures that they are ready for maintaining the pace and rigor in the upcoming year.

***Your progress will be accessed electronically by your teacher near and on the due date.***
